Abstract Sessions: Oral Presentations

**Chairs: Ron Sagiv, Shimon Ginath, Peter Petros.**

**Riegel M, Liedl B, Sutherland S, Yassouridis A, Stanford E, PROPEL-study group.** Pelvic Floor Centre Munich, München, Germany, University Medical Center, Seattle & Docter’s Medical Center, Modesto, USA.

13:21 – 13:27 Can wedge colpectomy performed abdominally cure anterior compartment defects?  
**Alp Öztürk A, Yetimalar H, Sivaslioğlu A**, Atatürk training and research hospital, Izmir, Turkey.

**Krissi H, Ben-Shirit G, Aviram A, Weintraub A, From A, Wiznitzer A, Peled Y**, Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva & Soroka University Medical Center, Beer Sheba, Israel.

13:33 – 13:39 Is there an association between diastasis rectus abdominis (DRA) and levator trauma in postpartum primiparous women after traumatic labor?  
**Eisenberg VH, Sela L, Masharawi Y**, Sheba Medical Center, Ramat-Gan, Israel.

**Eisenberg VH, Callewaert G, Housmans S, Van Schoubroeck D, Lowenstein L, Deprest J**, Sheba Medical Center, Ramat-Gan & Rambam Health Campus, Haifa, Israel, University Hospital Leuven, Leuven, Belgium.

**Sumerova N, Neuman M, Krissi H, Pushkar D**, European Medical Center, Moscow, Russia, Galilee Hospital, Nahariya & Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva, Israel.

13:57 – 14:03 Retropubic Tissue Fixation System tensioned mini-sling performed under local anesthesia cures Stress Urinary Incontinence and Intrinsic Sphincter Defect - one-year data.  
**Nakamura R, Yao M, Maeda Y, Enomoto K, Fujisaki A, Sekiguchi Y**, Yokohama Motomachi Women’s Clinic LUNA & Yokohama City University Graduate School of Medicine, Yokohama, Japan.

14:03 – 14:09 Positional pelvic organ prolapse (POP) evaluation using open magnetic resonance imaging (MRO).  
**Friedman B, Macnab A, Lazzare D, Stothers L**, Carmel Medical Center, Haifa, Israel & Bladder care center, University of British Columbia, Vancouver, Canada.

14:09 – 14:15 Fibulin-5 (Fbln5) gene polymorphism is associated with pelvic organ prolapse.  
**Khodzhievaa MB, Kamoeva SV, Vladimirov IC, Abilev SK, Salnikova LE, Slobodyanyuk BA**, Russian Academy of Sciences, Pirogov Russian National Research Medical University & Russian Ministry of Health and Social Development, Moscow, Russia.
Abstract Session, Wednesday 21st September (17:50 – 18:56).

Chairs: Stuart Stanton, Yuki Sekiguchi, Adi Y. Weintraub.

17:50 – 17:56 Somatic, psychological and sexual triggers for overactive bladder syndrome.

17:56 – 18:02 Anatomical outcomes and complications rate of transvaginal mesh use for POP.

18:02 – 18:08 Long term outcome of vaginal mesh reconstructive surgery in grand multiparous women.
Levy G, Fienberg I, From A, Barak S, Aviram A, Peled Y, Krissi H, Mayanei HaYeshua Medical Center, Bnei Brak & Rabin Medical Center, Petach Tikva, Israel.

18:08 – 18:14 Clinical and ultrasound picture of patients with recurrent genital prolapse and urinary incontinence.
Chechneva M, Popov A, Buyanova S, Tyurina S, Krasnopolskaya I, Slobodyanyuk B, Gumina D, Moscow Regional Institute of Obstetrics and Gynecology, Moscow, Russia.

18:14 – 18:20 An Effective Method of Teaching Cystoscopy to Obstetrics and Gynecology Specialists.
Saribacak A, Akar B, Başoğlu A, Bayık N, Sivasoğlu A, Çalışkan E, İstinye University School of Health Sciences, Duzce University School of Medicine, Bahçeşehir University School of Medicine, İstanbul & Muğla Sıtkı Koçman University School of Medicine, Muğla, Turkey.

18:20 – 18:26 Risk factors for obstetric anal sphincter injuries (oasis) among nulliparous mothers in a university tertiary hospital.
Yahav L, Baumfeld Y, Geva Y, Yokah D, Press F, Segal D, Weintraub AY, Soroka University Medical Center, Beer-Sheba, Israel.

18:26 – 18:32 Vaginal hysterectomy: bipolar vs. suture.
Slobodyanyuk AI, Ishenko AI, Slobodyanyuk BA, Zhukovsky Municipal clinical hospital, Zhukovsky, Russia.

18:32 – 18:38 Efficacy and safety of skeletonized mesh implants for advanced pelvic organ prolapse: 12 months' follow-up.
Weintraub AY, Neuman M, Reuven Y, Neymeyer J, Marcus-Braun N, Soroka University Medical Center, Beer Sheba, Galilee Medical Center, Nahariya, Ziv Medical Center, Safed, Israel & Charité University, Berlin, Germany.

18:44 – 18:50 Transperineal ultrasound in pop surgery.
Salimova LYa, Peoples’friendship university of Russia, Moscow, Russia.

18:50 – 18:56 Expression of heparanase in uterosacral ligaments of women with or without uterine prolapse.
3rd Abstract Session, Thursday 22nd September (14:00 – 15:00).

**Chairs: Adolf Lukanovič, Michel Cosson, Viki Kapustian.**

14:00 – 14:06 Effects of bariatric surgery on female lower urinary tract symptoms and sexual function.

*Grouž A, Leshem A, Gordon D, Shimonov M*, Lis Maternity and Women's Hospital, Tel Aviv & Edith Wolfson Medical Center, Holon, Israel.

14:06 – 14:12 Anchorless implant for the treatment of anterior and apical pelvic floor compartment prolapse.

*Levy G, Fekete Z, Padoa A, Bartfai G, Pajor L, Cervigni M*, Maynei Hayeshua Medical Center, Bnei Brak, Israel, Szeged University Hospital, Szeged, Hungary, Asaf HaRofeh Medical Center, Israel, Catholic University, Rome, Italy.

14:12 – 14:18 Vaginal vault prolapse following abdominal hysterectomy.

14:18 – 14:24 Female Urethral Obliteration.

14:24 – 14:30 Comparison of two different teaching methods in urogynecological surgery.

*Çalışkan E, Akar B, Bayık N, Başıbüğ A, Sarıbacak S, Sivaslıoğlu A*, Bahçeşehir University & İstinye University, İstanbul, Düzce University, Düzce, Muğla Sıtkı Koçman University, Muğla, Turkey.

14:30 – 14:36 Defining detrusor hemodynamics in overactive bladder (OAB) using transcutaneous near infra-red spectroscopy (NIRS).

*Friedman B, Shadgan B, Cvach K, Macnab A, Stothers L*, Carmel Medical Center, Haifa, Israel & Bladder care center, University of British Columbia, Vancouver, Canada.

14:36 – 14:42 Prolapse associated pelvic pain: frequency, severity and cure rates after pelvic floor surgery.

*Markovsky O, Liedl B, Sutherland S, Yassouridis A, Lukban J, Stanford E, Propel-study group*, Pelvic Floor Centre Munich, München, Germany, University Medical Center, Seattle, Eastern Virginia Medical School, Norfolk & Docter’s Medical Center Modesto, USA.

14:42 – 14:48 The impact of genital self-image on sexual function in women with pelvic floor disorders.

*Yaakobi T, Handelzalts JE, Levy S, Peled Y, Wiznitzer A, Krissi H*, Academic College, Tel Aviv & Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva, Israel.

14:48 – 14:54 Prevalence and risk factors for urinary tract infection up to one year following midurethral sling incontinence surgery.

14:54 – 15:00 Sexual activity and dyspareunia before and after pelvic-floor surgery.

4th Abstract Session, Friday 23rd September (12:00 – 13:12).

Chairs: Tally Levy, Moshe Barzily, Burghard Abendstein.

12:00 – 12:06 Risk factors for prolapse recurrence after Le Fort colpopleisis for severe pelvic organ prolapse in elderly women.

Krissi H, Aviram A, From A, Eitan R, Peled Y, Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva, Israel.

12:12 – 12:18 Redo vaginal reconstruction with buccal mucosal graft: initial experience.

Hidas G, Bauman D, Gofrit O, Pode D, Duvdevani M, Landau EH, Hadassah Hebrew University Medical Center, Jerusalem, Israel.

12:18 – 12:24 Protracted postpartum urinary retention – a long term problem or a transient condition?

12:24 – 12:30 Vaginal and laparoscopic sacrocolpopexy. A Dual Operation for Utero-Vaginal Prolapse compared to Pure Laparoscopic Approach.

Aharoni A, Laniado Hospital Netanya, Israel.

Popov AA, Fomenko OU, Slobodyanyuk BA, Atrosheenko KV, Fedorov AA, Manannikova TN, Tyurina SS, Koval AA, Moscow Regional Research Institute of Obstetrics and Gynecology, Moscow, Russia.

12:36 – 12:42 Vaginal cuff closure technique and the risk for infected pelvic hematoma after vaginal hysterectomy.

Feferkorn I, Schmidt M, Segev Y, Zilberlicht A, Auslender R, Abramov Y, Carmel Medical Center, Haifa, Israel.

12:42 – 12:48 Condition-specific validation of the Hebrew version of the Urogenital Distress Inventory (Udi-6) on a population of parturient.

Reuven Y, Yohay D, Glinter H, Baumfeld Y, Yohay Z, Weintraub AY, Soroka University Medical Center, Beer Sheba, Israel.

12:48 – 12:54 Vaginal mesh reconstruction outcome in relation to severity of 3rd degree anterior wall prolapse.

Beck A, Levy G, From A, Fienberg J, Barak S, Peled Y, Krissi H, Mayanei HaYeshua Medical Center, Bnei Brak & Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva, Israel.

12:54 – 13:00 Tissue Fixation System (TFS) sling to repair pelvic organ prolapse - a follow up for 6-years after TFS surgery and the outcome of finger assisted procedure in the last two years.

Inoue H, Shonan Kamakura General Hospital, Kanagawa, Japan.

13:00 – 13:06 Ultrasonic differential algorithm for SUI.

Weintraub AY, Ben-Zvi M, Yohay D, Neymeyer J, Reuven Y, Neuman M, Tsivian A, Soroka University Medical Center, Beer Sheba, Edith Wolfson Medical Center, Holon, Galilee Hospital, Nahariya, Israel & Charité University, Berlin, Germany.
Abstract Sessions: E-posters

- Comparison of the prevalence and risk factors for urinary tract infection up to one year following mini-slings (Gynecare Tvt Abbrevo® Continence System) and standard transobturator midurethral slings (Gynecare Tvt™ Obturator System).
  
  Yohay D, Reuven Y, Paz-Levy D, Yohay Z, Idan I, Elharar D, Glinter H, Weintraub AY, Soroka University Medical Center, Beer Sheba, Israel.

- Apical prolapse repair: long-term follow up.
  

- Structured hands-on workshop decreases the over-detection rate of obstetrical anal sphincter injuries.
  
  Krissi H, Amir A, Liran H, Ram E, Yoav P, Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva, Israel.

- Reinforcement of suspensory ligaments under local anesthesia cures pelvic organ prolapse-36 month results.
  
  Sekiguchi Y, Nakamura R, Maeda Y, Fujisaki A, Enomoto K, Yao M, Yokohama Motomachi Women’s Clinic LUNA & Yokohama City University Graduate School of Medicine, Yokohama, Japan.

- Long term functional outcomes following mesh augmented posterior vaginal prolapse repair.
  
  Weintraub AY, Friedman T, Baumfeld Y, Neuman M, Krissi H, Soroka University Medical Center, Beer Sheba, Galilee Medical Center, Nahariya, & Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva, Israel.

- The importance of the periurethral Doppler ultrasonography in diagnosing stress urinary incontinence.
  
  Agea D, Sivashioglu A. Atatürk training and research hospital, Izmir, Turkey.

- The differences and similarities between painful bladder syndrome and provoked vestibulodynia as common chronic pelvic pain syndromes.
  
  Grinberg K, Granot M, Weissman-Fogel I, Lowenstein L, Abramov Y, Carmel Medical Center, Haifa, Israel.

- Pelvic Floor Disorders, Personality Traits and Psychological Distress.
  
  Yaakobi T, Handzelzalts JE, Levy S, Peled Y, Wiznitzer A, Krissi H, Academic College of Tel Aviv-Yaffo & Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva, Israel.

- Vaginal prolapse induced fecal incontinence and obstructive defecation: frequency, severity and cure rates of pelvic floor surgery.
  
  Liedl B, Sutherland S, Yassouridis A, Lukban J, E. Stanford E, PROPEL-study group, Pelvic Floor Centre Munich, München, Germany, University Medical Center, Seattle & Docter’s Medical Center, Modesto, USA.

- Risk of mesh erosion after pelvic organ prolapse repair with or without concomitant vaginal hysterectomy.
  

- Vaginal Mesh Reconstruction Surgery – Does Age Matters?
  
  Beck A, Levy G, From A, Fienberg I, Barak S, Peled Y, Krissi H, Mayanei HaYeshua Medical Center, Bnei Brak & Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva, Israel.
• To mesh or no-mesh surgery in pop treatment?
  Salimova LYa, Shalaev ON, Peoples'friendship university of Russia, Moscow, Russia.

• Risk factors for obstetric anal sphincter injuries (OASIS) during vacuum extraction delivery in a university affiliated maternity hospital.
  Segal D, Baumfeld Y, Geva Y, Yahav L, Yohay D, Press F, Weintraub AY, Soroka University Medical Center, Beer Sheba, Israel.

• Outpatient mid urethral tissue fixation system sling for urodynamic stress urinary incontinence: three-year surgical and Quality of Life results.
  Nakamura R, Sekiguchi Y, Maeda Y, Kinjo M, Enomoto K, Fujisaki A, Yao M, Yokohama Motomachi Women’s Clinic LUNA & Yokohama City University Graduate School of Medicine, Yokohama, Japan.

• Risk factors for obstetric anal sphincter injuries (OASIS) during a delivery of a macrosomic neonate.
  Geva Y, Baumfeld Y, Yohay D, Segal D, Press F, Yahav L, Weintraub AY, Soroka University Medical Center, Beer Sheba, Israel.

• Glucocorticoid treatment results in regression of surgically induced endometrial lesions in rats: a preliminary study.
  Attar R, Yildirim OK, Yildirim G, Kaspar C, Ozkan F, Attar E, Yeditepe University Medical School & Istanbul University Medical School, Istanbul, Turkey.

• Double mucosal flap for the reconstruction of transverse vaginal septum - a novel surgical approach using the vaginal septal tissue.

• Long Term Functional Outcomes Following Mesh Augmented Anterior Vaginal Prolapse Repair.
  Weintraub AY, Friedman T, Baumfeld Y, Neuman M, Krissi H, Soroka University Medical Center, Beer Sheba, Galilee Medical Center, Nahariya, & Helen Schneider Hospital for Women, Rabin Medical Center, Petach Tikva, Israel.
